

Optus Thuraya

Smallest Sat Phone on the market

'yes'
OPTUS

Welcome to Optus Thuraya

Optus Thuraya is the latest Mobile Satellite Service (MSS) offering from Optus. Utilising the most sophisticated mobile satellite technology, Optus Thuraya delivers a range of portable voice and data products and services across all of Australia and extending throughout the Thuraya coverage area.*

Making calls from the Optus Thuraya phone is simple with connectivity achieved via a clear line of sight to the satellite.

COVERAGE

The Optus Thuraya service allows you to make and receive telephone calls across Australia and 200kms out to sea, extending throughout the Thuraya coverage area.*

FLEXIBILITY

Satellite Telephony offering you mobility and a choice to stay connected in places where terrestrial and GSM communications are unavailable.

INNOVATION

The Optus Thuraya phones set the standards for the smallest and lightest satellite handsets in the industry. Weighing in at 130g for the SO-2510 and 180g for the SG-2520. Carrying a pocket sized satellite phone has never been easier.

CONVENIENCE

Optus Thuraya enables you to go even further with seamless border to border satellite telecommunications extending into Asia, Middle East, Europe and Africa.

FUNCTIONALITY

Offering satellite voice, SMS, fax, data, GPS and GmPRS# services using Thuraya's Satellite Network. Dual Mode handsets using Tri-Band GSM also operate over the Optus GSM network.

SPECIAL FEATURES

The added benefit of built in GPS provides "location tracking" while roaming in remote and unconnected areas, allowing you to send your location as an SMS.

1. SATELLITE RATES

Calls to Australian National Numbers	\$1.30 + 40c flagfall
Calls to International Numbers	\$6.50 + 40c flagfall
Calls to other Satellite providers	\$6.50 + 40c flagfall
Optus fixed line calls to Optus Thuraya 0145 Numbers	\$1.98 + 15c flagfall
SMS	50c
Data (GmPRS)#	\$9 per MB

- Satellite rates are the same for all rate plans
- Call rates shown above are per minute and inclusive of GST
- Monthly Access Fees are payable in advance
- All calls are charged in 30 second increments
- Diverted calls will be charged at the normal rate for the relevant plan
- GSM rates as per your applicable rate plan

* Line of sight to the Thuraya Satellite is required

GmPRS is the Mobile Satellite form of GPRS. Not available until 2009.

2. SATELLITE PHONES

THURAYA SG-2520 DUAL MODE SATELLITE & GSM

Smart Phone

Thuraya SG-2520 is an advanced “smart phone” using cutting edge satellite technology. The 3-in-1 integrated handset: satellite, GSM and GPS offers users an unparalleled combination of quality and performance.

Personal Touch

Thuraya SG-2520's interface can be personalised to meet your taste. Choose from a wide variety of colour schemes and ring tones, personalise screen savers using your favourite images and configure your menu navigation preferences.

THURAYA SO-2510 SINGLE MODE SATELLITE

The Smallest

Carrying a satellite phone has never been easier.

As the world's smallest and lightest satellite phone ever made (only 130 g), the pocket size handset is designed to be highly portable and easy to use.

Mobility Unlimited

Thuraya SO-2510 offers satellite services in a mobile handset that is as compact and light as a GSM phone. It is a robust, dynamic phone designed for high performance satellite telephony in the harshest of environments where no other type of communications is available.
